

## **Additional Resources**

- For text revision, spelling, and grammar correction the following tools were used:
  - Grammarly: <https://app.grammarly.com/>
- For generation of synonyms, simplification of some of the plot and subsection titles, converting parameter files to latex scripts, and assistance with advanced plotting tool ChatGPT was used: <https://chatgpt.com/auth/login> (however the author strongly suggests to review responses of the language model in close detail, as it is merely 100% reliable).
